

Speech from Corasol

Hello everyone,

I am @lex from the group Corasol.

Corasol is a group that fights against racism and white dominance in society through structural-political work and mutual support. On behalf of Corasol, I want to thank you for being here.

Thank you so much for your support. We are all going through a very difficult time. A time when we not only have to worry about our health and that of our family and friends, but also a time when we are even less able to move freely and organize politically as we should and wanted to. Recently we got the news that the house where we do our plenum is threatened. For us it is a big shock and very sad news at the beginning of the year.

We have been dealing a lot the last years with the racism in the housing market, the sellout and privatization of the city and the displacement of marginalized groups. And today again one of our houses is in danger, like so many others in the past and currently still.

For us Corasol, this house is not only a place where we make our plenum. This house has much more meaning for us. It is the place where for years we have made and continue to make many acquaintances and friends, we form families there.

It is a place where we can share our racist experiences and where we can support each other - it is the place where we organize politically. It is a place where we feel comfortable and not afraid. We get support from other groups and from people who live there. Let's fight together in solidarity for this house and for this city.

We all stay.

Thank you Corasol Berlin
